# Theory Examination Information

Theory examinations will be offered for levels Prep to 8. Levels Prep to 4 will be 30 minutes long, Level 5 will be one hour long and Levels 6 to 8 will be two hours long. These examinations are based on the new RCM Prep to Level 8 theory books, which are for students of all instruments and voice. These examinations will complement the same level as their practical examinations. For example if a student takes their level 1 piano, violin or voice examinations they can also take their level 1 theory examination and they will receive a complete level 1 certificate. This is not a mandatory co-requisite, but rather a way to encourage both teachers and students to complete their theory studies as well as their practical studies at the same time, in whichever field they choose to study.

**ALL TUITION** payments must be up to date before exams may be taken
