Theory examinations will be offered for levels Prep - 8. Levels Prep - 4 will be 30 minutes long, Level 5 will be 60 minutes long, and Levels 6 - 8 will be 120 minutes long. These examinations are based on the current RCM Prep to Level 8 theory books, which are for students of all instruments and voice. These examinations will complement the same level as their Practical Examinations. For example if a student takes their Level 1 piano,, violin, or voice examinations they can also take their Level 1 Theory examination and they will receive a **complete** Level 1 certificate. This is not a mandatory co-requisite, but rather a way to encourage both teachers and students to complete their theory studies as well as their practical studies at the same time, in whichever field they choose to study.

ALL TUITION payments must be up to date before exams may be taken
